

# Marmaris - Hisarönü

## HB Golden Key A Special Category Hotel

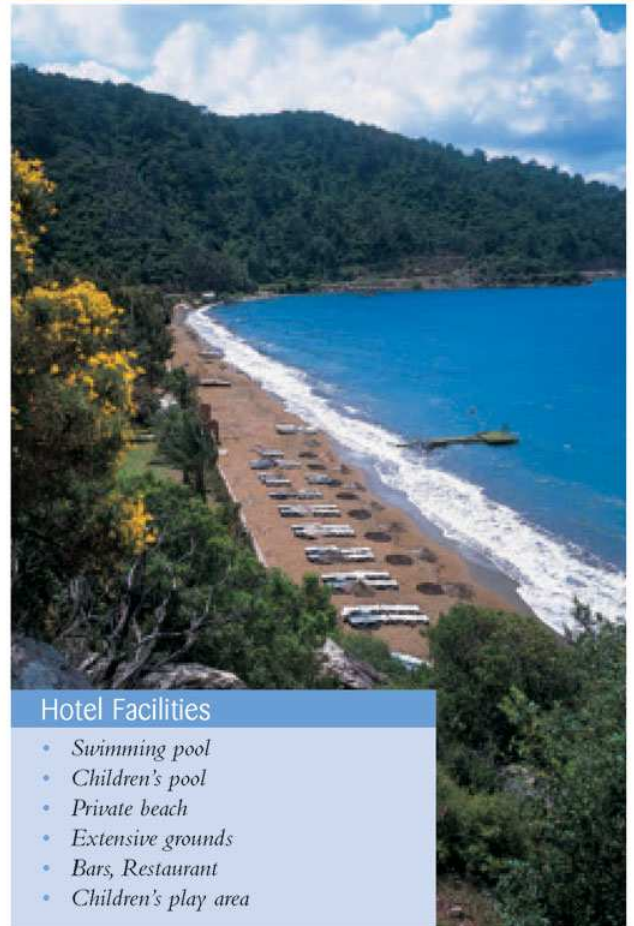

Founded on a green territory of 10 acres, the Golden Key resort is set on its own secluded bay, in a place known as Hisarönü, which is approximately 20 kms of winding scenic road from Marmaris on the same peninsula which leads to the villages of Orhaniye and Selimiye. Bougainvillea clad villas and cottages are discreetly spaced through elegant gardens with lawns leading down to the long expanse of sand by the sea.

The setting is idyllic and the complex is sheltered by surrounding hills and gardens which are abundant with palm trees, beautiful flowers, greenery and verdant lawns. The resort has its own beach with a jetty leading out into the clear waters of the Mediterranean. There is a large swimming pool and separate children's pool, with extensive sunbathing terraces.

Breakfast and dinner are usually served around the pool and there is a pool bar. There is a seafront beach bar and a range of watersports is available from the beach.

All rooms are of a good size and are decorated in traditional style, with handicrafts such as kilims and ceramic work. Each is air-conditioned with twin or double bed, sitting area, telephone, minibar, satellite TV, balcony or terrace and en suite bath, shower and WC. There are also King Suites available which sleep 4 with 1 twin and 1 double bedroom.

There is also a private villa with 8 beds for large families or groups. The Golden Key Hotel is ideal for couples and families who prefer a quiet and relaxing holiday, away from the crowded resorts.
